EDUCATION

Leeds Beckett University

1/09/2019 – 2022

After achieving 12 GCSEs ranging from A*-B, and achieving 3 A levels (Bio, Chem and Physics) all at Bs, I applied for Biomedical Science at LBU.

I have been at Leeds Beckett University for 3 academic (currently in Thrid year) years now. In my time I have enjoyed learning various skills and techniques in the labs. I am a hard-working individual and keeping to a strict deadline is in my nature.

WORK EXPERIENCE

KFC Staff Member

2018–2021

I enjoyed the fast-paced environment of working in the food industry. I was trained to do everything there is to do, the only other people who are trained to do everything are the managers, this demonstrates I have an aptitude for quick learning, and I am a trustworthy individual as I counted and reported the cash intake of the tills.

Ward Befriending Scheme

2018-2019

I spent a full year going to the wards helping elderly patients. This included talking to them, making them feel at ease, bringing their food and drink to them and creating a calm and relaxed environment. I went every weekend and on Wednesdays. This helped me gain valuable attributes pertaining to people and team skills.

Royal Mail - Mail Sorter

2021–Present

Royal Mail is a great workplace for individuals who have a high work ethic, it involves a lot of manual intensive labour, which I don't shy away from, I get on and help out others whenever. I am usually given responsibilities usually reserved for high up individuals, but I have created strong trusting working relationships with my managers which enables me to take on further responsibilities.

SKILLS
